

Newhank MP 203 USB

Q. How to make a play list on a USB Stick?

A. Rule: First file copied = First file played

Make a list of mp3 files on your computer and give each file a number.

example:

1.name.mp3

2.name.mp3

3.name.mp3

Etc.. when finished, copy them all in one time to your USB Stick.

Now your MP103 and 203 USB will play the files by this sequence.

Q. Now what, If you are planning to copy these files in folders to the USB Stick?

A. Make a list of folders on your computer and remember the steps and rule above.

First fill the folder with mp3 files and next copy to the USB Stick.

Now your MP103 and 203 USB will play the folders by this sequence.

Be advised to only copy your folders 1 by 1.
